CTMS

ACCOUNTING & BUDGETING
- Track revenue, costs, and profitability.
- Build your budget templates according to the study event schedule.
- Create invoices to sponsors for completed visits or other study revenue items as needed.

CALENDAR FEATURES
- Easily schedule study-specific visits. View calendars based on individuals, teams, investigators, or the entire company.
- Invite additional team members to your study appointments.

REPORTS
- Generate instant prescreening logs for sponsors instead of creating by hand and save countless hours.
- Compare financial data by the coordinator, investigator or entire company.
- Ensure patient recruitment is on time and within budget with multiple reports specifically for recruitment.
- Track advertising budgets and effectiveness of your campaigns.
- Financial study reports help manage receivables, payables and end-of-study reconciliation.

UPLOAD STUDY DOCUMENTS
- RealTime-CTMS is the only CTMS with a fully integrated PETT (Professional Education and Training Tracking System) built right in so you can manage all of your professional documents and expirations dates.
- Upload all study related documents and access them with ease.
- Save subject and visit-specific documents in RealTime-CTMS as well.

PATIENT DATABASE MANAGEMENT
- RealTime's easy navigation allows all users to run searches within the system based on multiple criterion:
  - At the click of a button, send an email to the subjects matching your search criterion.
  - Quick access to recruitment metrics makes completing feasibility questionnaires, a breeze.
  - Export lists to Excel for mail or email marketing campaigns with the click of a button.

PATIENT RECRUITMENT
- Build your biggest asset with a robust subject database complete with full, searchable medical history.
- Subject matching searches will give your site a recruitment boost and the competitive edge.
- Manage recruitment with contact management, status tracking and automated follow-up scheduling.

TASK MANGEMENT
- Keep track of upcoming and overdue visits.
- Be aware of pending subject recruitment activities.
- Patient follow-up reminders will ensure that no potential subject gets lost in the shuffle.
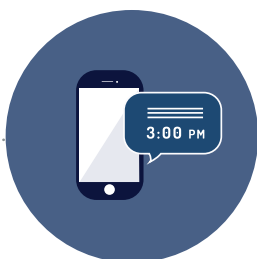

SECURE WORLD-CLASS HOSTING
- Professional data centers ensure that your data is secure.
- HIPAA compliant hosting includes non-web-facing databases and 256-bit encryption of data in transit and at rest.
- User login tracking and compliant user login credentialing procedures maximize the security of your data.
- Redundant data back-up at multiple geographical locations ensure business continuity and disaster contingency.

REALTIME
CLINICAL TRIAL MANAGEMENT SYSTEMS

⟨R⟩TEXT

Automatically *send appointment confirmations and reminders to all of your patients.*

- **24-HOUR TEXT REMINDERS**
- **REDUCE NO-SHOW RATES**
- **FCC COMPLIANT**

- **NO MORE PHONE TAG**
- **EXPAND YOUR RESOURCES**
- **IMPROVE PATIENT RETENTION**

HOW IT WORKS

Schedule subject visits in the RealTime CTMS Calendar.

Subjects will receive an automated TEXT message confirming the date and time of the visit.

Subjects will receive an automated 24-hour visit reminder TEXT with confirmation options.

Staff will be alerted of subject responses through email and internal system alerts.

ADDITIONAL FEATURES

INTERNAL TEXT REMINDERS

SET AUTOMATIC TEXT APPOINTMENT REMINDERS FOR YOURSELF OR OTHER STUDY STAFF.

EMAIL LOGS

RECEIVE AN EMAIL WHEN THE PATIENT REPLIES WITH A VISIT CONFIRMATION, RESCHEDULE OR CANCELLATION.

ONLINE & MOBILE

PROVIDE YOUR PATIENTS WITH SPECIFIC INSTRUCTIONS, SUCH AS: FASTING 10 HOURS REQUIRED, BRING YOUR MEDICATION ETC.

☐ eDOCS

Go paperless with the first CTMS-Integrated eRegulatory document solution

RealTime-eDOCS™ is the first eRegulatory solution fully integrated with a robust clinical trial management system (RealTime-CTMS™). Manage all of your study records from study start-up to archive and maintain inspection-readiness during the whole process.

Staff training & certification management

Complete document audit trails

Safe & secure cloud hosting

eSignatures

- Allow site users to access and manage regulatory records remotely, making travel between sites unnecessary.
- Allow remote monitoring which adds value to sponsors and reduces their travel time and costs.
- Set expiration dates for CVs, licenses and certifications.
- Save time and money spent printing, gathering handwritten signatures, filing, scanning, and mailing between sites and sponsors.
- Facilitate inspections, audits and study record requests with the FDA, sponsors, and IRBs.

- Standardize and centralize eRegulatory binders in one secure location for quick and easy access.
- Eliminate paper-based regulatory binders and storage costs.
- Allow sites to implement ICF tracking on all subjects within a study.
- Increase efficiency using electronic signatures.
- Improve collaboration between investigators and sponsors.
- Accelerate study start-up processes.

REALTIME
CLINICAL TRIAL MANAGEMENT SYSTEMS

R PAY

Pay stipends instantly with this fully integrated payment system. **Save time & money.**

HOW IT WORKS

INSTANT PAYMENTS. SAVE TIME. REDUCE COSTS. MORE SECURE.

Give your patient a reloadable Visa® card.

When they complete their visit, mark it as complete in the RealTime system.

You can either pay the visit immediately, or wait and pay all stipends at a later date.

Funds are loaded instantly onto their card and can be used right away.

ADDITIONAL FEATURES

TEXT ALERTS
PATIENTS WILL RECEIVE AN SMS TEXT MESSAGE EVERY TIME THEIR CARD IS LOADED.

2-DAY ACCOUNT FUNDING
FUND YOUR ACCOUNT BALANCE IN JUST TWO BUSINESS DAYS!

ONLINE & MOBILE
PATIENTS CAN QUICKLY AND EASILY CHECK CARD BALANCES AND TRANSACTIONS ONLINE OR FROM THEIR MOBILE DEVICE.

FEATURES THAT MAXIMIZE REALTIME eSOURCE EFFICIENCY

CUSTOMIZED eSOURCE TEMPLATES

Build your own eSOURCE form templates that can be reused and/or modified on future studies, simplifying the eSOURCE creation process and saving time on each study.

OPTIMIZED FOR MOBILE PLATFORMS

RealTime-eSOURCE can be utilized on any type of device or display including desktops, laptops, or RealTime's slick mobile app for Apple and Android operating systems.

EFFICIENT INTEGRATION OPTIONS

Pairing RealTime-eSOURCE with CTMS, eDOCS, TEXT and PAY offers efficient access to site systems and data like no other. Log into one RealTime system instead of many other systems to get the job done!

DATA ACCURACY ASSURANCES

Build data parameters into form fields to ensure completion, accuracy and eliminate errors. Protocol compliance checks and safety checks can be included to ensure subject eligibility.

COLLABORATION AND OVERSIGHT

eSOURCE provides complete TEAM collaboration and real-time site monitoring utilizing web-based systems. A query system for CRAs streamlines communication and prevents data inconsistencies.

NEW MOBILE APP FOR eSOURCE

Build data parameters into form fields to ensure completion, accuracy and eliminate errors. Protocol compliance checks and safety checks can be included to ensure subject eligibility.

ADDITIONAL FEATURES

INTEGRATION OPTIONS

RealTme-eSOURCE can seamlessly integrate into all RealTime site solutions to include CTMS, eDOCS, PAY and TEXT. No other system or software vendor can provide this level of integration and efficiency.

ENTERPRISE-LEVEL SOLUTIONS

RealTime has the most advanced site enterprise systems available for multi-site organizations. These organizations need the ability to manage multi-site operations and eSOURCE from an enterprise portal. RealTime can provide a seamless enterprise-level solution.

eSOURCE

OUR NEW MOBILE APP FOR eSOURCE IS HERE!

COMPLETELY MOBILE eSOURCE
Collect data onto eSOURCE forms from your smartphone or tablet.

REFER PATIENTS INTO STUDIES
Doctors and staff have quick access to I/E criteria and can easily refer potential patients.

STORE YOUR STUDY AND SITE CONTACTS
Study, site and personal contacts are all accessible in the mobile app.

INSTANTLY SIGN DOCUMENTS
With fingerprint technology, it's never been easier to sign documents electronically.

ACCESS TO STUDY DOCUMENTS
Quickly navigate your study documents with our robust document management system.

USER-FRIENDLY INTERFACE
Our intuitive design makes entering or reviewing data a breeze.

Set up a live demo today to learn how eSOURCE is streamlining the way research sites collect data.
